

<b>Issue Date:</b>	<b>August 2010</b>
<b>Subject:</b>	<b>Cultural Resource Management</b>
<b>Location:</b>	<b>Anchorage, North Slope</b>

Cultural resources are located in the Point Thomson Project Area. Steps have been taken to avoid known sites, but you may encounter an artifact during work activities. As part of our vision of being **good neighbors** and in order to **comply with the law** please:

- ✓ Do **NOT** move or collect **artifacts** (including bones, metal or wood objects or **Animal remains**) from their original location
- ✓ Note the location of the artifact (**GPS coordinates and photos preferred**).
- ✓ Notify the **Field Environmental Advisor** of the discovery so proper **notifications** can be made.
- ✓ If work activities are being conducted in the direct vicinity of the artifact all **activities must cease until further notice**.

Isolated wooden artifact found on the tundra in the Project Area.

Bone snow goggles and harpoon tip from a North Slope site
